

This is sickening. You cannot let these proposed changes to pass.
Dropping
the laws to allow big business to own practically all of the media
is just
another step to the Orwellian America we've been moving to since
9/11. You
cannot allow this to pass. Thank God for these 'alternate media'
magazines
that allows America to even know what is going on. None of this is
mentioned
in the major news outlets.
Sickening. I can barely recognize the country I love anymore.
